

TruCleanEX

Product Data Sheet

Eco-Safe Brush Wash

DESCRIPTION: TruCleanEX Eco-Safe Brush Wash is formulated from a blend of eco-friendly solvents and surfactants designed to remove latex paint, varnish, lacquer, shellac and polyurethane from synthetic bristle brushes and roller covers. Reconditions synthetic brushes to “like-new” condition.

Replaces mineral spirits and other flammable brush cleaners. Do not use on natural hair brushes.

- Recognized for Safer Chemistry by the EPA Safer Choice program.
- Water-based and Non-Flammable.
- Reconditions the bristles as it cleans when directions are followed.
- Ideal for use on synthetic brushes, and roller covers.
- Separates paint from cleaning solution... allowing safe disposal of waste paint.
- Cleaning solution can be used multiple times.
