

# Tired of trying to sell cookie dough, coupon books and cheesecakes?

As seen in  
Cook's Illustrated,  
Reader's Digest and  
The Oprah Magazine

## Give the Skoy a try... It will sell itself!

### What is SKOY? SKOY cloth is...

- Earth-friendly
- 100% Biodegradable
- Absorbent - Absorbs 15 times its own weight
- Re-usable -- Use instead of Paper Towels & Sponges
- European-made
- Machine Washable
- SKOY cloth saves time, money, and trees

### How SKOY cloth works...

SKOY cloth is a reusable product due to its amazing durability. Using one SKOY cloth is the equivalent to using 15 rolls of paper towels in an average home. With the high cost of paper towels, SKOY cloth is the obvious choice for your wallet and the environment.

SKOY cloth can be cleaned in your dishwasher and is washer/dryer safe. Chlorine use is not recommended. Another option to keep your cloth healthy and germ-free is to microwave it wet for 1-2 minutes.

SKOY dries quickly, so it is not a breeding ground for bacteria. "Have you ever used your sponge, then smelled your hand and it reeked of horrible bacteria?" That won't happen again if you microwave your SKOY cloth regularly.

Each 4-pack contains a variety of 4 colored cloths with a custom school design. Note, you may not get the same colors as in the pictures.

**4-pack  
\$10**

### How the fundraiser pricing works...

- Your cost: \$6.00 per 4 pack.
- Re-sell for \$10.00 per pack... which is 67% RETURN ON INVESTMENT!
